4-H Space Adventure Camp

June 9-11, 2020

An exploration of flight . . .

- Build and fly a hot air balloon
- Try your hand at testing some of the laws of physics
- Try your skills at landing on the moon
- Experiment with the principles of flight

4-H Space Adventure Camp

4-H Space Adventure Camp is for boys and girls, ages 11 to 13 and/or students who were 5th to 7th graders during the current school year. They will have the opportunity to explore the world of flight and science as they build and test flying machines, conduct computer flight simulations, learn about the principles of aerodynamics and gain an overview of the development of the space flight program.

The three action-packed days will take girls and boys through an exciting adventure in “hands-on” learning including:

- Building and flying hot air balloons, model rockets and other “things that fly”
- Touring the universe within a planetarium
- Exploring the stars and planets
- Computer flight simulations and space exploration
- Enjoying the closest experience to weightlessness possible on earth (swimming)
- Conducting a model rocket launch
- Participation in a special graduation ceremony
